The "Hassle" over the "Juke Box Take"

While there are many people who do not care to hear the blaring noises, sometimes called music, which issue from the average juke boxes in many places, there probably are just as many others who drop their coins to hear their favorite popular singers or bands, and seemingly like what they hear.

However, it is to be wondered whether those who offer their contributions in quarters, dimes or nickels, are aware that they are contributing to a half billion dollar a year "take" of a big industry which under present law does not obligate that industry to pay anything in the way of royalty to the singers or musicians who produce this music.

According to recent news stories and editorial comments "In 1957, the juke box impresarios will place in grills, taverns, diners, drugstores, motels and highway amusement spots some 500,000 machines that will each swallow an average of at least \$1,000 worth of coins during the year."

Yet an odd quirk in the copyright lawpassed in 1909 before Congress had heard of juke boxes - exempts "coin - operated music machines" from the customary obligation of paying royalties to the creators of the popular songs they peddle to the public.

This strange exemption dates from the "penny arcade" days, when grandpa could clap on earphones, put a penny in the slot and get a load of "Shine On Harvest Moon". Songwriters then made their money from sheet music and regarded the penny arcade as a "plugger" for their creations. But when the upright piano all but

vanished from the parlor, the composers looked hopefully to mechanized music for income. And, so far, they have asserted in vain their right to share in the quarters and dimes their music woos from juke box patrons.

A Senate report on the perennial hassle between the operators who wish to continue their legalized poaching, and the composers who would like to be paid for the use of their property, has been issued by Chairman Joseph C. O'Mahoney of the Senate Judiciary Copyright subcommittee. He hopes, he said, in an accompanying statement, that this will provide the basis for a compromise between the songwriters and the song - sellers that his

President Paul Cunningham of the American Society of Composers, Authors and Publishers declared that he would seek a meeting with the operators in an effort to carry out the Senator's sugges-

The American Bar Association, the General Federation of Women's Clubs, and the U. S. Government itself, are reported to have gone on record as favoring modernization of the copyright law to put the juke boxes on the same basis as all other commercial music users.

After all, the juke box exists only to reproduce music that Americans are supposed to like - well enough to dig down for the torrent of dimes and quarters that cascade through half a million slots.

Justice to the tunesmiths who create that music apparently has been long de-

NEW YORK (A) - People die. People are born. Things change. But not Yale men, not basical-

I have in hand the latest issue of the Yale Alumni Magazine, a journal normally seen only by the white buckskin sons of Eli, whose hearts still turn every sundown toward New Haven with the eternal sigh, "For God, for country and for Yale."

The magazine is interesting not because of its surprises but because of its relative lack of surprises. Now, I do not claim that it reflects or suggests a Yale stereotype but I do submit that Sinclair Lewis, were he still alive, might vastly relish the sumed, are now in their early known to the faithful as YAM.

Of the first four ads in the magazine, one is devoted to the problems of "squaring away" the family estate through a dissuggests the advancement opportunities at an aircraft company, one, by another distinguished New York bank poses the question of "How do you select

Congressional Probes Are Useful

The questioning of John Foster Dulles, secretary of state, by the Democratic members of the Senate Foreign Relations Committee, is a sound function of that body and of those senators. The principal reason for the existence of the two-party system in the United States is that the party not in power will scrutinize the conduct of the party in office and will debate whatever issues arising

This policy was pursued by the Republican party during the Roosevelt and Truman administrations and no man in public office was given such a hard time as was meted out to the Secretary of State, Dean Acheson, who was accused of being soft on communists.

Those who engaged in this assault on Dan Acheson never regarded their conduct as improper or unpatriotic because they felt that, as Republicans, it was their function to safeguard the people's rights and interests.

Thus, the hearings on the dismissal of Gen. Douglas MacArthur, held before the committee on Armed Services and the Committee on Fortign Relations of the Senate, was a full debate before the public on themilitary and diplomatic policy of the Truman administration in the Far tain fields of our economy.

The Republians cannot expect that their conduct in the Middle East, policies which generally speaking have failed as the Truman adminsitration's policies failed in the Far East, will not come under similar examination. The questioning of John Foster Dulles by Sen. Fulbright has been sharp and to the point.

It is really dangerous, in a country such as our's, when the

It cannot be right that the people should be taxed into poverty at a time when the cost of living is so high. Representative Frederic R. Coudert, Jr., has introduced a bill to have a Hoovertype commission appointed to study the defects and inequities of the federal tax structure, including the income tax and to recommend constructive changes. Such commissions are useful, but I prefer the congressional committee using open hearings, so that whatever happens may

be known to the public. While there are many people who do not care to hear the blaring noises, sometimes called music, which issue from the average juke boxes in many places, there probably are just as many others who drop their coins to hear their favorite popular singers or bands, and seemingly like

what they hear. However, it is to be wondered whether those who offer their contributions in quarters, dimes or nickels, are aware that they are contributing to a half billion dollar a year "take" of a big industry which under present law does not obligate that industry to pay anything in the way of royalty to the singers or musicians who produce this music.

According to recent news stories and editorial comments "In 1957, the juke box impresarios will place in grills, taverns, diners, drugstores, motels and highway amusement spots some 500,000 machines that will each swallow an average of at least \$1,000 worth of coins during the year."

Yet an odd quirk in the copyright lawpassed in 1909 before Congress had heard of juke boxes — exempts "coin - operated music machines" from the customary obligation of paying royalties to the creators of the popular songs they peddle to the

This strange exemption dates from the "penny arcade" days, when grandpa could clap on earphones, put a penny in the slot and get a load of "Shine On Harvest Moon". Songwriters then made their money from sheet music and regarded the penny arcade as a "plugger" for their creations. But when the upright piano all but

vanished from the parlor, the composers looked hopefully to mechanized music for income. And, so far, they have asserted in vain their right to share in the quarters and dimes their music woos from juke box patrons.

A Senate report on the perennial hassle between the operators who wish to continue their legalized poaching, and the composers who would like to be paid for the use of their property, has been issued by Chairman Joseph C. O'Mahoney of the Senate Judiciary Copyright subcommittee. He hopes, he said, in an accompanying statement, that this will provide the basis for a compromise between the songwriters and the song - sellers that his group can consider in Congress.

President Paul Cunningham of the American Society of Composers, Authors and Publishers declared that he would seek a meeting with the operators in an effort to carry out the Senator's sugges-

The American Bar Association, the General Federation of Women's Clubs, and the U.S. Government itself, are reported to have gone on record as favoring modernization of the copyright law to put the juke boxes on the same basis as all other commercial music users.

After all, the juke box exists only to reproduce music that Americans are supposed to like - well enough to dig down for the torrent of dimes and quarters that cascade through half a million slots.

Those who engaged in this assault on Dan Acheson never regarded their conduct as improper or unpatriotic because they felt that, as Republicans, it was their function to safeguard the people's rights and interests.

Thus, the entire fiscal policy of the United States needs re-examination, particularly as regards taxes.

It cannot be right that the people should be taxed into poverty at a time when the cost of living is so high. Representative Frederic R. Round about Fayette County

By B. E. KELLEY. In delving into business transacted by the Fayette County Commissioners around 1905, I discovered that the large record book known as Commissioners Minutes, Volume L, is missing from the County Auditor's office, and apparently has been for years.

I found part of the Commission- which became famous. er's records in the County Engineer's Office where they have been knew who the guests were to be unused for reference work, but Vol- til they arrived, so that he was ume L was no place to be found, continually being surprised-and and County Auditor Harry Allen is liked it. anxious to locate the missing records, which are very valuable.

The janitors state that no such record has been moved into the conglomorate pile of records in the attic for at least 20 years.

Some day soon when I have time I am going to take a flashlight and invited to the Willsons "for beans". go through the vast number of books and other records in the were delicious, being well seacourthouse attic in search of the soned with bacon hambone, and missing volume.

POWDER HOUSE ECHO

I have a communication from Mrs. Ralph C. Kah, 305 S. Ohio Avenue, Sidney, in which she states that it is her recollection that the old powder house torn down recently, was built by her father, Frank A. White, of the White and Ballard Wholesale Co.

Her letter follows: "Your articles in the Record-Herald always interest me, as I am quite old enough to remember the early history of your town, and from hearing my father and mother discuss it.

"The old powder house you wrote Thugs Get \$1400 about yesterday was used by the White and Ballard Wholesale Co., Levine, 63, opened his cafe this to store powder, and I think it was morning, two gunmen came in built by my father, F. A. White. "I hope you keep on writing about

the early days." Mrs. Kah has long resided in Sidney, but is known here to a great many friends.

cycle racing was at its height, and such contests were held at intervals in Fayette and adjoining counties, the only three passenger bicycle ever ridden in Fayette County, of which there is a record, was by W. The men had obtained the threeseat tandem for the race, and after if was over, shipped it back to Springfield.

Several two - seat tandem bikes were owned here, and one of these was ridden by Miller and Harve Smith, former Mayor of Washing-

So far as I am aware there is just one tandem bicycle in Fayette County at the present time, and it is owned by Walter Coil who obtained it in Canada to add to his collection of old bicycles.

A FRIENDLY GESTURE

Many local residents recall, with a great deal of pleasure, the time they were guests of Mrs. Joe Willson and her daugh-

ter, Romaine, who lived in the last house on the north side of W. Market St., next to the railroad, and who frequently on Saturday evenings, had a few guests, usually newcomers in the city, for a baked bean dinner.

Mrs. Willson and her daughter alternated as hostesses to the small groups invited for the bean dinners,

He recalls that the baked beans pigs feet.

Not only the beans, but the brown bread and slaw, made the dinners memorable. The getting acquainted at the dinner table and visiting hour afterward, are recalled as highlights by those who were fortunate enough to partake of the Willson hospitality.

Their entertaining covered a period of many years, ending probably 30 years ago, and their idea might well be taken up by someone who loves to entertain, who enjoys helping make newcomers welcome and their friends happy.

PAINTING OVER WALLBOARD

With the do-it-yourself movement in full swing these days, we've had a number of inquiries about the preparation of wallboard surfaces for final painting. If your finish coat is to be a pastel tone, apply a sealer, or a tinted primer first. When dry, you're ready for your finish coat. If the finish coat is to be a deep color, best results will follow a primer coat covered with a sealer tinted close to the color of the finish coat.

CONSTIPATED?

new laxative discovery un-locks bowel blocks

without gag, bloat or gripe

Constipation is caused by what doctors call a "thrifty" colon. A "thrifty" colon is one that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its con-tents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and ex-pels waste from your body.

Vright TOTALS

TO REGAIN NORMAL REGU-LARITY two things are necessary. First, the dry, shrunken contents of your colon which now block your bowel must be re-moistened. Second, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it and so, excite its muscles to action; to a normal urge to

AND, OF ALL LAXATIVES, only COLONAID, the amazing new laxative discovery possesses COLONAID's great moisturizing capacity plus COLONAID's stretch-stimulating bulk that

activates normal colonie reflexes. So effective that it relieves even chronic constipation overnight, Colonaid is yet so smooth, so gentle it has been proved safe even for women in the most critical

stages of pregnancy.
SUPERIOR TO OLD STYLE bulk, salt or drug laxatives, COLONAID neither gags, bloats nor gripes; does not interfere with your absorption of vitamins and other valuable food nutrients; and in clinical tests, did not cause rash or other side reactions.
